Governor Brown Requests Presidential Major Disaster Declaration Due to January Storms

- Governor Edmund G. Brown Jr. requested a Presidential Major Disaster Declaration for the state to bolster ongoing state and local recovery efforts following January storms that caused flooding, mudslides, erosion, power outages and damage to critical infrastructure across California.
 - Full request can be found [here](#)
- Governor Brown also issued an executive order that adds the counties of Amador, Mono and Riverside to the 49 counties already included in the emergency proclamation issued last month due to January storms.
- The order also authorizes state funding through the California Disaster Assistance Act for 34 counties impacted by the storms and directs the California Department of Transportation to formally request immediate assistance through the Federal Highway Administration's Emergency Relief Program for Amador and Riverside counties.
 - Full text of the Executive Order can be found [here](#)

Cal OES INLAND REGION

Train Derailment, Elk Grove, Sacramento County, Hazardous Materials Spill Report #17-1286

On 02/10/17 at 1302 hours, the California State Warning Center (CSWC) received a report from Union Pacific Rail Road (UPRR) advising that a derailment occurred in Elk Grove, Sacramento County.

- 23 rail cars derailed as a result of a collapse on a small train bridge due to flooding The location of the incident is the Fresno Subdivision, Milepost 56.20. This is near HWY 99 and Dillard Rd., Elk Grove, Sacramento County.
- Per UPRR, approximately 14-17 railcars derailed into the Cosumnes River overflow, not the river itself
- Per Cal OES FDO, current identified commodities have been food based product (flour, tomato paste) but on scene resources continue to investigate. Some of the cars derailed upright and some of the cars are possibly upside down
- There are no injuries reported
- There are no confirmed hazardous materials release at this time
- Local agencies are on scene
- There are no requests for state assistance at this time
- Updates will be provided as information becomes available
- CSWC made notifications per SOP

Cal OES INLAND (continued)

Mudslide, I-80, Placer County

On 02/10/17 at 1003 hours, Caltrans reported that a mudslide occurred on I-80 near Colfax, Placer County which closed both directions of the roadway.

- Caltrans crews are on scene performing cleanup operations.
- At 0535 the CSWC was notified that the eastbound #2 lane reopened at approximately 2245 hours on 02/11/17.
- The westbound lanes remain closed.
- There have been no reports of injuries or stranded parties.
- A detour is available for passenger vehicles through SR49 to SR20.

Oroville Dam Spillway Incident

- On 02/07/17 at 1000 hours, the Department of Water Resources (DWR) notified the California State Warning Center of an issue with the main spillway at Oroville Dam.
 - At this time, there is no concern with the Dam itself. There is no impact to the public.
 - On 02/10/17 at 2000 hours, flows down the main spillway were dropped down to 55,000 cubic feet per second (cfs).
 - The power house is still shut down as a mitigation action to protect the towers from the main spillway erosion along the right wall and due to the tail water being too high for the power plant (could cause flooding inside the power plant). The flooding is caused by the level of releases from the spillway.
 - Since the releases will decrease, there is a chance that the tail water may lose height and that erosion of the right wall will decrease. This may put the power plant in play with a capacity to release an extra 13,000 cfs which would be a net gain of 3,000 cfs.
 - At 2000 hours on 02/11/17, DWR expects that the dam will crest at approximately 900.7 feet, three tenths of an inch below the emergency spillway (which is at 901). DWR has also modeled through the next storm and with the expected releases continuing near the currents levels, they expect that they will gain storage capacity post storm anywhere from 10 to 20 feet (model dependent).
 - Monitoring the situation 24 hours a day continues to be a priority.
 - A Cal OES Fire Branch Assistant Chief has been assigned as an Agency Representative.
 - A Cal OES Deputy Regional Administrator has been assigned the Incident Command Post.
 - 3 Cal OES Public Information Officers have been deployed to the Joint Information Center.

Cal OES INLAND (continued)

Levee Breach, Wilton, Sacramento County

- On 02/10/17 at 1811 hours, the California State Warning Center (CSWC) received a report from the Cal OES Law Branch advising a levee breach occurred in Wilton, Sacramento County.
 - Per the Cal OES Inland Region, the Sacramento County Sheriff's Office notified residents in the area via Everbridge notification, advising to shelter in place overnight.
 - An evacuation center has been identified at Pleasant Grove High School, 9531 Bond Road, Elk Grove.

Water Levels at Mariposa Dam and Owens Dam, Mariposa County

- On 02/10/17 at 2321 hours the Cal OES Law Branch advised the water level at Mariposa Dam reached the emergency spillway and water levels at Owens Dam are expected to reach the emergency spillway.
 - Both dams are currently intact.
 - Per the Cal OES Inland Regional Duty Officer (IDO), Mariposa Creek is spilling over the spillway.
 - High water flows are not expected to fall below the spillway until 02/11/17 at 1600 hours.
 - The Sheriff's Department remained in the area to assist with possible evacuations and to monitor creeks.
 - There are currently no unmet needs.
- At 2300 hours on 02/10/17, the Merced County EOC activated.
 - One Cal OES Inland Region Emergency Services Coordinator will deploy to the EOC on 02/11/17.

SITUATION SUMMARY

2017 Statewide February Winter Storms

State Agencies

Activations

- The State Operations Center (SOC) activated to level 2 to support the Regional Emergency Operations Centers and local partners activated for severe weather.

State/Federal Agency Preparatory Activities:

California Nevada River Forecast Center

- The California-Nevada River Forecast Center is currently at 24-hour staffing through the weekend and will issue four hydrologic forecasts per day.
 - Staffing will be adjusted if conditions change.

Department of Water Resources

- The Department of Water Resources (DWR) Flood Operations Center (FOC) will be activated with an Operational Period of 0700-1900 hours.
 - 1900 hours - 0700 hours – Duty Officer Status.
 - A daily briefing will be conducted at 1000 hours until further notice.

Cal OES Law Branch

- The Law Enforcement Branch continues to monitor weather changes with the predicted incoming winter storms.

Critical Infrastructure.

- None reported at this time.

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Coastal Region

Activations

Coastal Regional Operations Center has returned to Level 1 activation

- Sonoma County EOC – Level 2

Mission Tasking

2017-LAW-30324, 2/9/2017, 2005 hours, Sonoma County Sheriff's Office(SCSO) requested (2) High Water Vehicles with operators capable of traversing flooded roadways to assist with potential evacuations from the greater Guerneville and Monte Rio area for an operational period beginning at 0700 hours, 2/10/2017. Cal OES LEB coordinated with California National Guard(CNG) for the requested resources. **Update: At 2309 hours**, CNG accepted the mission and will deploy a Liaison Non-Commissioned Officer(LNO) to the Sonoma County EOC and (2) High Water Vehicle Teams to the SCSO Substation in Guerneville. **Mission On-going.**

2017-SOC-30115, Scotts Creek Levee, Lake County

- CALFIRE has been tasked to provide Hand Crews to assist with construction of a couple of small sandbag rings to contain boils starting to form near the Scott's Creek Levee at Hwy 29. The location is about 1/4 mile West of the gate on the West side of Hwy 29.

School Closures

- [None reported at this time.](#)

Two Alarm Fire, Chinatown, San Francisco, San Francisco County

On 02/03/17 a Two-Alarm fire displaced residents from a two story Chinatown building, as a result the American Red Cross and Salvation Army have established a shelter to assist them.

- Salvation Army Chinatown Corp, 1450 Powell Street, San Francisco
 - Midnight Shelter Count: 15

2017 February Winter Storm Proclamations

- [On 02/10/17 at 1848 hours, a Proclamation/Resolution was received from Sonoma County. The county is not requesting assistance at this time. They are asking for an extension for the local emergency for the county.](#)

2017 Statewide Winter Storms

Cal OES Inland Region (Continued)

Evacuation Shelter

Sutter County

- American Red Cross has established an evacuation shelter at Yuba/Sutter Fairgrounds - 442 Franklin Ave Yuba City, CA 95991. Midnight Shelter Count: 0

Lassen County

The County has established an evacuation shelter at Susanville Community Church, 1400 Numa Rd, Susanville, CA - Overnight population: 3

Mission Tasking

- 2017-IREOC-30082: Tree falling crews to support Sacramento OA
- 2017-IREOC-30084: Hand crews to assist in flood fight in Mariposa OA
- 2017-IREOC-30162: CAL FIRE crew to assist in flood fight in Madera OA – Mission Closed
- 2017-IREOC-30202: California Conservation Corps(CCC) crew to assist in flood fight in Yolo OA
- 2017-SOC-30296: 2 CAL FIRE flood fight hand crews for the City of Portola (Coordinating)

Deployments

- One Deputy Regional Administrator deployed to the Oroville Dam Incident Command Post (ICP)
- Deputy Regional Administrator is deployed to Yuba County for the night shift
- Sr. ESC deployed to Tuolumne and Calaveras Counties
- Emergency Services Coordinator (ESC) deployed to Yuba County
- ESC deployed to San Joaquin County
- ESC deployed to Plumas County
- ESC deployed to Butte County
- ESC deployed to Sutter County
- ESC deployed to Yolo County

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Inland Region (Continued)

River Forecast - The following rivers are forecast to meet or exceed Flood stage:

Tehama County:

- Sacramento River at Tehama Bridge is forecast to be above flood stage at 215.6 feet the morning of 02/11/17.
 - Potential Impacts: Between 213.0 and 214.0 Feet the county park becomes inaccessible. Lower trailer park slots (temporary slots) start to flood.

Glenn County:

- Sacramento River at Ord Ferry is forecast to be above flood stage at 115.6 feet the morning of 02/11/17.
 - Potential Impacts: Design overflow level for M&T, 3BS and Goose Lake Flood Control facilities to divert flood flows into Butte Basin. M&T overflows closing River Road from Ord Ferry Road to Chico River Road. Ord Ferry Road is already closed.

Yolo County:

- Yolo Bypass at Lisbon is forecast to be above flood stage at 23.6 feet the morning of 02/12/17.
 - Potential Impacts: Kearney Ranch House floods.

Sacramento County:

- Mokelumne River at Benson's Ferry is forecast to be above flood stage at 20.7 feet the evening of 02/11/17.
 - Potential Impacts:

- Cities: City of Grass Valley, City of Loyalton, City of Nevada City, City of Placerville, City of Portola, City of South Lake Tahoe, Town of Truckee
- Special Districts: Reclamation District 900, Washington Water District

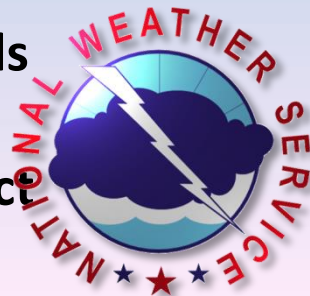

Proclamations for Southern Region:

- Counties: Inyo County, Los Angeles County, Mono County, Orange County, Riverside County, San Diego County, San Luis Obispo County, Santa Barbara County, San Bernardino County
- Cities: City of Duarte, City of Diamond Bar, City of Chula Vista, City of National City, City of Poway, City of Pismo Beach, Town of Mammoth Lakes

Key Points

The last in this current series of storms will finally be winding down today. Drier and warmer conditions are expected for the northern 2/3 of California while the south remains wet into Sunday. Although precipitation is decreasing, flooding will continue right into next week.

- Flooding along unregulated rivers, streams, roadways, and low-lying areas today and running high through the weekend.
- Heavy snow will cause hazardous travel over Sierra passes with travel delays likely today with lingering impacts over the weekend.
- Winds will be strong enough to down trees and cause prolonged power outages today through the weekend.
- Rockslides and mudslides possible, especially along mountain slopes and steep grades today.
- Thunderstorms are possible today, with the potential for small hail, very gusty winds, and flash flooding.
- Debris flows are also possible over burn scars with periods of brief heavy rain (greater than 0.50" per hour) Friday.
- The next storm in the upcoming series will begin to impact CA coastline by Wednesday next week.

Service Interruptions:

Community of Pike, Sierra County

- The community of Pike in Sierra County has had no phone service since 0800 hours, 02/09/17. Pike is located in the south west corner of Sierra County, the Pike Zip code is 95960, which belongs to North San Juan, Nevada County, and the phone Prefix for Pike, is 288, which is the same as Camptonville, Yuba County.
- AT&T reports the community is isolated due to the phone lines being taken out by a landslide. Currently AT&T has no ETR to restore service due to the slide area instability.
- Sierra County Sheriff has been notified and is looking into the incident.
- Per the Cal OES 911 and Telecommunications Branch, no 9-1-1 centers or PSAPs (Public Safety Answering Point) are affected.

Remote/Community Isolations:

- None reported

WEATHER SYNOPSIS BY REGION

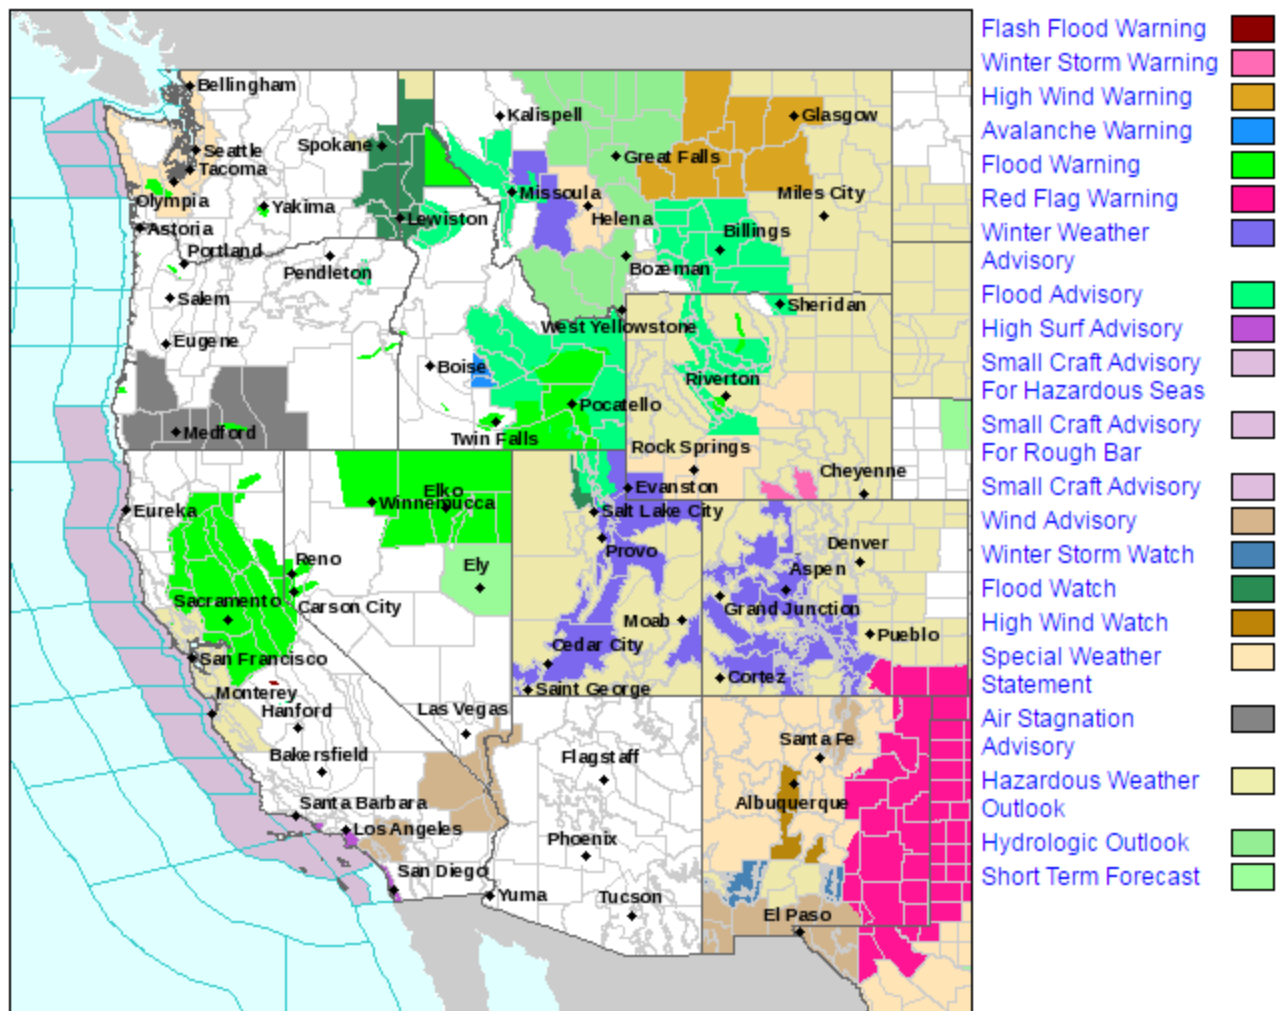

NORTHERN CALIFORNIA

The storm system moving into Northern California today will continue to produce moderate to heavy precipitation with snow levels above 7000 feet. SE to SW winds will gust to 50-60 mph in many open areas and 80 mph or higher in the most wind-prone mountain locations. The main cold front associated with this storm is still offshore, but it will move through the region from west to east later today. Once the front passes winds will diminish and turn W-NW and snow levels will begin to drop as the steady precipitation turns to showers. Snow levels will gradually drop to 3000 feet in the north and 4500 feet in the south by midday Friday as widespread showers continue in the mountains and scattered showers continue in the valleys. Showers will come to an end prior to sunrise Saturday. High pressure will move overhead Saturday through Tuesday and produce warm and dry conditions with occasionally gusty N-E/offshore surface winds from the western Sierra slopes to the coast. On Wednesday the next approaching Pacific storm system will begin to spread clouds and increasing southerly winds over the region, and rain may move onshore overnight. That storm system is expected to impact the region through Friday, followed by another one a couple days later.

SOUTHERN CALIFORNIA

A Pacific storm will bring showers to Central California through Saturday morning and to Southern California through Saturday night. Most locations will receive an additional 0.50 to 1.50 inches of rainfall with this storm. The snow level will drop to between 5,000 and 6,000 feet by Saturday morning. South to west winds of 15 to 30 mph with gusts to 50 mph will surface across the mountain ridges and desert passes through tonight. Temperatures will cool to near normal today, with mid 40s to mid 50s across the mountains and upper 50s and 60s in the valleys. Temperatures will cool another 5 degrees Saturday. A ridge of high pressure will build into California from the Pacific Ocean bringing a warming and drying trend to the region Sunday through the middle of next week. North to northeast winds of 20 to 40 mph with gusts to 60 mph will surface across the mountains and below the canyons and passes of Southern California Saturday night through Sunday night. At this time, it looks as though a series of Pacific storms will move into the West Coast bringing periods of heavy rain to the entire area along with strong south to west winds across the mountains and deserts starting Thursday.
